

MOTHER'S DAY 2021

Although we celebrate Mother's Day, we are aware that some children are without a mother or have a parent without any positive influence. We recommend that this term is explained to include and honour adults who play a motherly role in a child's life.

Copy the pattern on colour paper. Cut around it and place on another colour cardboard to see if it fits.

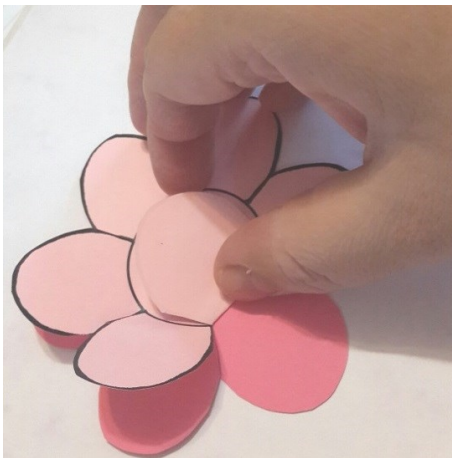

Apply a bit of glue (or use double-sided tape) at the back of the flower's circle. Take care not to stick the "leaves" down.

Cut both the paper and cardboard along the outer border lines.

Also cut between the leaves to the edge of the circle.

Fold the leaves back and let the child write some positive features of their mother underneath each leaf. Children can also write their own names underneath one of the leaves.
